

J500 Celebration Edition

Technical overview

JURA standards

Variable brewing unit, from 5 g to 16 g	■
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	■
Additional preground coffee powder	■
Hot water function	■
Cappuccino frother	■
Height-adjustable coffee spout	■
Energy Save Mode (E.S.M.®)	■
Multi-level Aroma+ grinder	■
CLARIS filter cartridge	■
High-performance pump, 15 bar	■
Thermoblock heating system	■
Integrated rinsing, cleaning and descaling programme	■
Adjustable water hardness	■
Zero-Energy Switch or power switch	■
Swiss made	■

Specific benefits

Latte macchiato at the touch of a button	■
Cappuccino at the touch of a button	■
Wireless ready	■
Powder recognition for additional ground coffee variety	■
Intelligent preheating	■
Integrated storage compartment	■
TÜV certificate for user-friendly user manual	■

Settings and programming options

Programmable amount of water	■
Amount of water can be adjusted for each preparation	■
Adjustable coffee strength	5 levels
Coffee strength can be adjusted for each preparation	■
Programmable brewing temperature	2 levels
Hot water temperature can be programmed	3 levels
TFT colour display	■
Rotary Switch	■
Programmable switch-off time	■
Active bean monitoring	■
Monitored drip tray	■
Integrated cappuccino rinsing and cleaning programme	■
Maintenance status display	■

Design and materials

Silver carbon-look front	■
Height-adjustable coffee spout	65 – 111 mm
Width-adjustable coffee spout	20 – 50 mm
Height-adjustable cappuccino spout	110 – 153 mm
White cup illumination	■
Amber cup illumination	■
Sound design	■

Accessories

Stainless steel vacuum milk container 0.6 l	■
Cup warmer	optional
Cool Control	optional

In figures

Water tank capacity	2.1 l
Coffee grounds container (servings)	approx. 16
Bean container with aroma preservation cover	250 g
Cable length	approx. 1.1 m
Voltage	230 V AC
Power	1450 W
Energy consumption	approx. 10.6 Wh
Energy consumption with E.S.M.®	approx. 4.1 Wh
Stand-by power	≤ 0.1 W
Weight	10.9 kg
Dimensions (W × H × D)	28.5 × 34.2 × 43.3 cm
Checks	CE Ⓢ
Colour	Carbon Silver

Front panel elaborately finished with highquality materials

TFT display for selfexplanatory, intuitive operation

Aroma⁺ grinder now twice as fast for fully preserved aroma

Foam of the finest

J500 Celebration Edition

Over the past 20 years, JURA has continually set new standards in coffee quality, ease-of-use and design. This wealth of experience has been embodied in the limited Celebration Edition, J500. Highlights include the silver carbon-look front and the cup grille made of high-quality glass. An ingenious, intuitive operating concept quickly delivers the desired speciality coffee thanks to the Rotary Switch and modern TFT display. It goes without saying that the elegant automatic coffee machine, a real one-touch product, prepares the full range from latte macchiato to ristretto at the touch of a button and without you having to move the cup. The fine foam technology ensures magnificent milk foam quality with a fine, featherlight consistency.

Front panel elaborately finished with highquality materials

As soon as you see it, you will be wowed by the J500's hand-crafted silver carbon-look front panel. This emphasises the design which has won numerous international accolades and radiates elegance and sophistication.

TFT display for selfexplanatory, intuitive operation

The operating concept couldn't be clearer, simpler and more intuitive. Simply turn the Rotary Switch and a list of speciality coffees appears on the TFT display. Just press the button once, and you'll soon be enjoying a delicious cup of coffee. The modern graphics coupled with the machine design paint a harmonious picture.

Aroma⁺ grinder now twice as fast for fully preserved aroma

By perfecting the cutting angle inside the grinding cone, the JURA engineers have managed to increase efficiency significantly. As a result, the perfect aroma can now be achieved in all its natural fullness in half the grinding time. So now coffee lovers can enjoy pure and perfect coffee indulgence with less preparation time and less noise.

Foam of the finest

The height of the cappuccino spout for latte macchiato and cappuccino and the coffee spout can be adjusted on a continuous scale. This allows you to create the perfect specialities both in a small espresso cup and in a latte macchiato glass up to 153 mm tall whenever you want. The integrated fine foam technology from JURA ensures unique milk foam quality with a fine, feather-light consistency.
